A New Look for the Atlanta RDC

We have launched the new ARDC website! It has a cleaner look and improved maneuverability. Information on proposal writing, data, and links to informational presentations and conferences can all be found on the website. Check it out at atlantardc.org and let us know if you run into any problems.

Register for the 2016 RDC Research Conference

The annual FSRDC Research Conference will be held on **Thursday, September 15, 2016** at the Texas RDC in **College Station, TX**. Go [here](#) for call for papers and more information! Whether presenting or not, this conference is an excellent opportunity to network with other RDC researchers or to find out how others are using non-public data in their research.

Job Posting - Tenure Track Research Assistant Professor

The Innovation, Knowledge and Networks (INK) program in the Survey Research Center (SRC) of the Institute for Social Research (ISR) at the University of Michigan seeks applications for a research assistant professor position to work in the Institute for Research on Innovation and Science (IRIS). IRIS is a national consortium of universities that share data with core faculty at Michigan. The IRIS data repository collects, protects, and makes available for research use administrative data on the process, products, social and economic impacts of research conducted on member university campuses. IRIS is housed in INK, which conducts research on the relationship between evolving social networks and knowledge-intensive, innovative work and organizations using large-scale data sets and computational social science methods.
