A report of activities of the Atlanta Research Data Center

Welcome Auburn University

As of January 1, 2020, Auburn University is now a member of the Atlanta Research Data Center. They are off to a strong start with one already active project, "Dynamic Effects of Wage Setting: Evidence from the National War Labor Board," with Chris Vickers and Nicolas Ziebarth (both in the Economics Dept) along with Ethan Kaplan at the University of Maryland as Principle Investigators.

ARDC Travel Grants Available for Member Institution Researchers

Once again, the ARDC is making \$1,000 travel grants available to researchers from Consortium or Institutional member locations outside of the Atlanta area. If interested in obtaining more information, please contact Julie Hotchkiss (Julie.L.Hotchkiss@atl.frb.org).

Heads-up: New NCHS Fees Coming

The National Center for Health Statistics Research Data Center (RDC) has implemented changes in how fees are charged for projects. The new fee structure became effective on Feb. 9, 2020.

- The management fee will be based on the number of data years requested.
- Fees will also be charged for project amendments or renewing a project.
- There is now a Sworn Status (SSS) application fee of \$1,800 for working at a Federal Statistical Research Data Center (FSRDC) for those who do not already have SSS.

Visit the [RDC Fees and Invoicing page](#) for more information:

Restricted French and German Micro Data Available through ICPSR

Restricted French (CASD) and German (IAB) micro data are now available through the Inter-university Consortium for Political and Social Research (ICPSR). These data provide an opportunity to undertake cross-country analyses.

Familiarizing yourself with the research possibilities by watching a webinar describing the data on the ICPSR YouTube channel: https://www.youtube.com/watch?v=SizDiWB_608

Further details about German data can be found here: <https://fdz.iab.de/en.aspx>

Further details about the French data can be found here: <https://www.casd.eu/en/>
